SKILLS

Multifaceted and Intelligent individual who would love to contribute to your company using my strong business aptitude, love for hard work, and my creative yet analytical thinking.

EXPERIENCE

CanCap Management Inc, Remote - *Funding Analyst*

April 2021 - PRESENT

- I review the accuracy of loan documents received digitally from automotive dealer partners across the country in comparison to the loan approval and company policies. Done by leveraging an internal workflow platform.
- Accurate and timely data entry of loan details to ensure successful onboarding of the client's loan.
- I work in a face paced environment to achieve departmental service-level goals.
- Expected to provide strong customer service by answering inbound calls from dealer partners who require assistance in fulfilling loan documentation requirements or general inquiries.
- Balance attention and prioritization between new files and follow up on outstanding files.
- Display a commitment to teamwork and collaboration.

Darling Solutions, 880 ON-5, Dundas - *General Labourer*

June 2018 - January 2021

- I was responsible for any general work required. This work varied in content and location depending on company needs.
- Typically worked in the wash bay where I, along with my coworkers, was responsible for ensuring all trucks in the yard were maintained in a presentable condition according to company standards
- Had to maintain flexible hours and work overtime according to Instructions from managers
- Would on occasion be sent out with trucking fleet workers where I'd work with them to collect products while maintaining customer relations

Fortinos, 102 Hamilton Regional Rd 8, Stoney Creek - *Grocery Clerk*

September 2016 - May 2019

- I reorganized and stocked store products in a fast-paced, customer-service-intensive environment
- Was responsible for creating displays targeted at selling ongoing store specials
- I'm trained on how to use various machinery such as power jacks and pump jacks
- Responsible for dealing with customers through an energetic yet professional attitude
- Always adhere to a specific dress code
- Responsible for any general maintenance required around the store including the responsibility of maintaining a clean environment for a positive shopping environment for all customers

HIGHLIGHT OF TECHNICAL SKILLS

OS: Mac, Linux, Kali Linux, Windows.

Well-studied in modern blockchain technologies

Knowledgeable in Git, C/C++/C#, Java OOP, Python, Lua, HTML, CSS, JS, PHP, and Excel VBA. Also very well versed in all data structures and their situational O notations

Machine learning enthusiast with a strong understanding of the history, implementation, and use-case of many of the mathematical models as well as how they're applied to cutting-edge technologies such as: OpenCV, TensorFlow, Keras, Tesseract, SAS, ONNX, Neo4j and enjoy learning more every day.

Freelances full stack web development services

EXTRACURRICULAR

Highschool Robotics Alumni, Orchard Park High School - *Team 2056*

September 2015 - June 2018

- A proud former member of the Heavily team-oriented team 2056, a world-renowned team that prides itself on excellence.
- Required a serious dedication of time which developed my effective planning skills at a young age.
- Spent most of my contribution to the programming team where we'd apply WPILib C++ to various control systems such as actuators, sensors, and motors as needed.
- Used PID(Proportional-Integral-Derivative) feedback control to then program autonomous features to the robot. This learning experience of taking math straight out of a textbook and applying it directly to a machine spearheaded my studies in computer sciences at a university level.
- Also contributed to the fabrication of the various aluminum/wood parts for both the robot and the game field, along with learning how to install hardware and wiring by scratch effectively

EDUCATION

Orchard Park Secondary School, 200 Dewitt Rd, Hamilton - *O.S.S.D*

September 2015 - June 2018

University level classes

Honour student

Wilfrid Laurier University, Waterloo ON - *BSc, Computer Sciences*

September 2018 - Present

Currently studying towards my Batchellor in computer sciences for my third year

Attempting a minor in Economics
